

Romesh Jain

Frontend Engineer · React.js · Next.js · React Native · TypeScript · MERN Stack

+91-9516949156 | romeshjainofficial@gmail.com | linkedin.com/in/romeshjain/ | github.com/romeshjain

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript
Frontend	React.js, Next.js (SSR/SSG/ISR), Redux Toolkit, Tailwind CSS, NativeWind, HTML5, CSS3, Formik, Yup
Mobile	React Native, Ionic Capacitor, Android Deployment
Backend	Node.js, Express.js, REST APIs, JWT, Firebase (Auth, FCM, Firestore)
Integrations	Stripe, Google Maps API, Calendly, WebSockets, Social Login
Tools & Ops	Git, GitHub, Postman, Swagger, Vercel, Netlify, Figma, VS Code, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

DigiMonk Technologies

Gwalior, India

Software Engineer

Jan 2026 – Present

- Architected RBAC admin panels (super-admin, clinician, content-admin) across 3 production apps, eliminating unauthorised access entirely.
- Built real-time chat + push notifications via WebSockets and Firebase FCM, measurably improving response times and user engagement.
- Boosted Lighthouse scores significantly through Next.js code-splitting, lazy loading, and image optimisation on high-traffic dashboards.

Associate Software Engineer

Dec 2024 – Jan 2026

- Engineered a shared React.js / React Native component library adopted across 4+ apps, cutting duplicate code and accelerating delivery.
- Delivered data-heavy dashboards with SSR pagination, debounced search, and infinite scroll — handling large record sets with zero lag.
- Integrated Stripe, Google Maps API, Firebase Auth, and OneSignal across multiple projects with zero post-launch regression incidents.

Graduate Trainee

Apr 2024 – Dec 2024

- Contributed production-ready components from sprint one; cut UI bug backlog through systematic layout audits and cross-browser testing.
- Gained hands-on experience with Git branching, CI/CD pipelines, and PR review workflows — fully onboarded into production-grade engineering practices within the first month.

InOffice Labs

Remote

Web Developer Intern

Oct, 2023 – Mar, 2024

- Built and maintained responsive React.js components from Figma mockups, delivering pixel-perfect, reusable UI across the product.

KEY PROJECTS

SAHEL – Service Booking Platform | Next.js · React Native · Redux Toolkit · Firebase · WebSockets · Node.js

- Cross-platform app (mobile + web admin) with real-time technician dispatch, multi-tier RBAC, and FCM notifications segmented by city and schedule.

PROTOCOL – Health-Tech Diagnostics Platform | Next.js · Redux · Stripe · Calendly API · REST APIs

- AI-driven patient dashboards with biomarker scores; Stripe subscriptions and Calendly booking flows reduced manual ops overhead significantly.

SuprFind – Local Business Listing Platform | Next.js · Redux · Google Maps API

- Advertiser and admin panels with Google Maps geo-search, pin-drop, and analytics tracking impressions, visits, and calls at scale.

Palliwal Jain Community App | React Native · Node.js · Express.js · JWT · Biometric Auth

- Networking app for thousands of members with family tree views, biometric login, JWT-secured APIs, and lazy-loaded search.

ACHIEVEMENTS

- Promoted Trainee → Associate → Software Engineer in 21 months — fastest in the team based on delivery consistency and code quality.
- Best UI Design – VSS Bootcamp: LinkedIn Clone ranked #1 out of 60 participants by the founding team.
- Velotio Weekly LinkedIn Quiz Winner — recognised among top respondents for technical accuracy.

EDUCATION

Bachelor of Computer Applications (BCA) | Makhanlal Chaturvedi University, Gwalior

Jun, 2020 – Jun, 2023

CGPA: 7.67 / 10.0 | Data Structures & Algorithms, Operating Systems, Software Engineering
